Conditions and Terms Under Which
Project Grants Are Made."

Human Subjects

For any studies that involve human subjects, the Council requires annual institutional certification that adequate informed consent has been obtained. This will be done on a form furnished by the Council.

Priority in Awarding Renewals

Although grants can be made for one year only, many studies are designed to extend over a longer period. In these cases, consideration will be given to renewed support up to an inclusive total of three years in annual competition for available funds. Nevertheless, a renewal application and appropriate status report are required each year before the request can be considered.
